WHATKILLSAMERICANS

Fast Living-Rechless Bating-Hard Drinking-Poor Steeping-Social Jealousy-Political Ambittati-Visient Passions The Have for Stoney.

The alarming disease of this country is nervous debility and prostration. It goes under many names but it is essentially the same complaint. Hospitals and private institutions for nervous patients are crowded. The average of life in the United States is decreasing every year. Sudden deaths from nervous collapse among our business, professional and public men are so frequent as searcely to excite remark. The majority of suicides, committed without apparent reason, or under so-called "depression of spirits," are really prompted by nervous prostration, which is a fruitful source of insanity and crime with all their grief and horror.

These facts are startling. They threaten the very life of the nation. They assail the springs of its power and prosperity. They wreck manhood's strength and woman's usefulness and beauty.

Every one should know the causes. What are they? The answer is easy and terribly plain: Our vicious personal habits; our careless and lawless eating and drinking; the intense mental and physical strain arising from our mad race after money, position and influence; the fears and struggles of poverty; the use of narcotics and stimulants; our fashion of turning day into night and night into day; and, briefly, our, desperate willingness to pay any price for an hour's pleasure or success. So we burn life's candle at both ends and fill the lunatic asylums and the graveyards.

The disease from which we suffer and die is, in plain English, Nervous Dyspepsia, as it is scated in the Nerves and in the organs of Digestion, Assimilation and Nutrition. Healthy digestion being impeded or destroyed, the whole body, nerves included, is literally starved; even when there is no emaciation to tell the sad story.

, Nervous prostration sends out its warnings:-headache in the morning; a persistent dull heaviness or aching at the base of the brain; wakefulness; loss of appetite and disgust with food; loss of mental energy and interest in ordinary duties and business; restlessness and anxiety without any assignable reason; eructations; bad breath; foul mucous on the teeth; occasional giddiness; palpitation of the heart; sallowness of the skin; coated tongue and gradual failure of strength and ambition.

The remedy is a total abandonment of the habits and customs which cause the disease in each individual case, and the use of Shaker Extract of Roots (Seigel's Syrup) to cure the mischief already done. This great remedy, prepared by the Shaker Community of Mt. Lebanon, N. Y., is especially adapted to eradicate Nervous Dyspepsia. To do this it acts directly and gently but powerfully upon the disordered stomach, liver and kidneys, restoring their tone and vigor, promoting the secretion of bile, expelling waste matters from the system, and purifying the blood. Upon the nervous system Shaker Extract(Seigel's Syrup) acts as a safe and wholesome anodyne without the slightest narcotic effect, and then leaves the nerves to regain their natural tone and strength through its wonderful influence upon the function of nutrition.

It is safe to say more nervous dyspeptics have been re-stored by it from the depths of misery to a fresh enjoyment of life and labor than by any or all other forms of treatment combined.
